

It has come to my attention that consideration is being given to Federal legislation that may have the impact of weakening Indiana's "No Call" legislation.

As a resident of the state, I feel that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

Since becoming a listed participant on Indiana's roster, I have been very pleased with the lack of solicitation that I have encountered. Prior to the law, I was consistently called at inopportune times such as early weekend mornings and during family dinner times. With the law in place, these calls have ceased.

Please do not step backwards towards allowing "existing customer" loopholes or any other weakening of this effective state legislation.
